

**SPECIAL EDITION**

Delivery of our local peppers expected to start beginning of August as usual

**INFOPURE ALERT—SPECIAL EDITION**

## Local peppers delivered starting at the beginning of August as planned

Groupe Tomapure wishes to inform you that, despite the heavy rain and violent storms that hit the South Shore of Montreal on July 4th and severely damaged the crops in this area, the delivery of our local peppers is still expected to start at the beginning of August as planned, since the North Shore was mostly unaffected.

You can be assured that should there be any change, you will be informed immediately.
