## INFORMATIONS ON THE PRODUCTS:

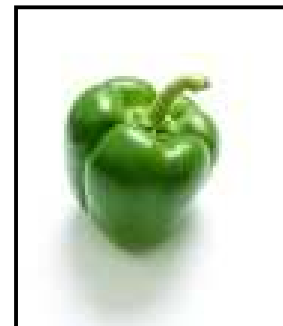

### TOMATOES:

The tomatoes from California will be completed in October and those of Virginia should be completed on the 1st week of the month. On the east coast, the new harvest should begin in Northern Florida, or Quincy and subsequently, regions such as Ruskin, Palmetto, Plant City and Wimauma.

### THE PEPPERS

If the weather allows it, we will have green peppers in Quebec for the first part of October. Thereafter, we drive to the south, Georgia

### THE CUCUMBERS

We are receiving the cucumbers from Leamington. The amount of sunshine is on the decline in October, the crops could be affected by offering a decline in volume. On the other hand, the quality should not suffer the consequences.

### THE ONIONS

In October, the crops have begun in Oregon. The producers provide a good quality product.

### THE TRANSPORT

The export is at its minimum, caused by a weak exchange rate (US-CAN). This leads to a decrease in trucks and an increase in transportation costs.
